To be completed by the City:

Floodplain Determination:

Project is located: _____ Floodplain (Flood Fringe)
_____ Floodway

Map information: FIRM Date _____
FIRM Zone _____
BFE at Development Site _____ (MSL)
Development must be elevated or floodproofed to _____ (MSL)
_____ Project not located in a special flood hazard area

Other Permits Necessary:

CITY OF FRONTIER
APPLICATION FOR DEVELOPMENT PERMIT

Diagram of building(s)/structure(s) on lot/area map **must be shown** on Page 6. Include septic system, driveway, water well or water connection, garage, security light, mail box, location and variety of trees next to the street, **lot drainage** (consistent with the established drain plan), and any accessory buildings, fences, and signs. **Two** copies of the blueprints and **two** copies of the Permit Application (with original signatures) must be submitted.

If any changes are to be made after this application is filed, an amended application must be filed. Any additions or structural alterations require inspections. For applications requiring city council approval, the application must be filed with the City Auditor at least five days prior to a scheduled city council meeting in order to be reviewed for possible approval at that council meeting.

NOTICE

All construction must comply with the city's flood proofing code. All construction must comply with notice of rules furnished with development permit. All electricity, plumbing, heating, ventilating, and air conditioning must be done to city or state codes, as applicable.

If deposit forfeited during construction, the applicant must provide another \$1,000 deposit prior to resuming work.

Contacts for inspections:

City: Perry Ronning 281-2639 or 793-0053 at least **24 hours before concrete is poured** to arrange for construction inspections of footings, basement concrete forms, poured concrete basement walls and supports, and structure. Approx. time of inspection must be given at 24 hour notice.

Electric: State Electrical Inspector for the inspection of all work done on the premises.

Plumbing: Clarence Schaffer from the State Plumbing Board 701-799-1555 to apply for a plumbing certificate.

Any permit becomes null & void if work or construction authorized is not completed within one year from permit date.

Lot Drainage: property must be graded so that there is a 5% slope from the house to minimum of 10 feet from the foundation wall of the house. In no case shall the grade on the lot e such that runoff from the lot drains onto an adjoining lot. Permit deposit will not be refunded until lot grade is finished.

Owner will notify City by letter to 5202 32nd ST S at least 35 days prior to any occupancy of a new residence. Failure to provide such notice makes owner responsible for all costs and penalties associated with penalties assessed by the City of Frontier and the forfeiture of the \$1,000 deposit.

Erosion control must be used on all new construction adjacent to the road and around any ditches or drainage areas. The City will contract out erosion control and bill against the deposit if the applicant fails to provide erosion control.

Refundable deposit can be requested only after all work is completed, and all inspection reports (Structure & final inspections, sewer connection drawings, plumbing & electric inspections, flood proofing certificate, and flood elevation certificate are completed and on file with the city. Failure to provide listed certificates within 60 days of final inspection will result in forfeit of deposit.

Final plans must show exact location of water stop on water line, location of the connection to the water line, and connection to the sewer line. The plans must be submitted to the city with the associated inspection reports.

CITY OF FRONTIER
APPLICATION FOR DEVELOPMENT PERMIT

The weight restrictions below apply to all roads within the City.

LOAD RESTRICTIONS
MAXIMUM WEIGHTS
APPLICABLE TO AXLE & GROSS VEHICLE LOADS
SINGLE AXLE: NOT TO EXCEED 12,000 LBS
TANDEM AXLE: NOT TO EXCEED 12,000 LBS
PER EACH AXLE
3 AXLES OR MORE (GROUP): 10,000 LBS
PER AXLE. ON DIVISIBLE LOADS THE GROSS
WEIGHT OF THE AXLE GROUPING MAY NOT
EXCEED 30,000 LBS
GROSS WEIGHT: NOT TO EXCEED 48,000 LBS

SPRING LOAD RESTRICTIONS
MARCH 15TH - APRIL 20TH
MAX. GROSS WEIGHT: 32,000 LBS

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

Should any part of this document not coincide with the most current City of Frontier ordinances, the ordinance will prevail and supersede this document.

CITY OF FRONTIER
APPLICATION FOR RESIDENTIAL DEVELOPMENT PERMIT

NOTICE OF CONSTRUCTION RULES AND RESTRICTIONS

Minimum front setback for single-family residential buildings is 75 feet the street. Single-family residential buildings shall not exceed two and one-half stories or 35 feet in height and must be at least 20 feet from any structure on an adjacent lot. (Includes Eaves). Accessory buildings must be in the back yard, be at least 10 feet from lot lines (including eave), are not to exceed 21 feet in height, must match house (siding, shingles, etc.), and floor space cannot exceed 800 sq. ft. No more than 1 accessory building allowed on any one lot.

For construction on lots that have an approach road, the culvert under the approach road must be at least 24 inches in diameter, and the bottom of the culvert must be set 4 inches below the grade of the ditch. Resident's mailbox must be placed on the same side of the road or street as existing mailboxes or per United States Postal Service's requirements.

Utility locations: All utilities (water, sewer, electrical, etc.) if located across a paved road surface shall be installed only as follows: boring will be the only means by which services will be allowed across paved surfaces. Undermining or tunneling under a paved surface (more than 60 degrees vertically from the edge of the road) shall not be allowed. **Security lights shall be installed in the front yard and must conform to city standards.**

Excavation into existing ditches shall be replaced to within 90% compaction. Applicant shall furnish compaction test. Any sodded areas shall be replaced with sod. Excavation into other areas must be sodded.

Construction vehicles (trucks, trailers, tractors, etc.) or equipment used for construction purposes will not be parked on any paved surface for more than a 1-hour period. Any deviance from this restriction may result in the loss of the refundable deposit or a fee of \$100.00 per day levied against that property.

The owner shall be responsible for all damages caused to the roads and streets from the construction process. In case of damage to roads or streets, they must be restored to their preconstruction condition. The refundable deposit will be used to offset any damages to roads, streets, and other property caused by the construction process. The amount of the deposit does not limit the owner's liability.

All required inspections and certificates must be signed, completed and delivered to the City Building Inspector (at 5202 32nd ST S, Frontier, ND 58104) before the deposit can be returned. No more than 60 days will be allowed to complete and submit all required inspection paperwork and certificates after the permit expires, otherwise the deposit will be forfeited.

It shall be the responsibility of the applicant to arrange for inspections with the Building, Plumbing, and Electrical Inspectors as work progresses. Any progress in construction which hampers inspection shall be removed at applicant's expense to facilitate inspection.

No *Flood proofing Certificate* can be issued unless the inspector is able to inspect concrete forms both before and after concrete is poured. The applicant is responsible for obtaining any required flood *Elevation Certificate* and *Flood proofing Certificate* from a licensed engineer.

Any non-residential portion of the construction must conform to the appropriate requirements of the Americans With Disabilities Act (ADA).

No trailer homes nor mobile homes shall be permitted to be installed on the real estate. No farm animals, including but not limited to cows, horses, sheep, pigs or chickens (or other fowl) shall be permitted on the premises.

CITY OF FRONTIER
APPLICATION FOR COMMERCIAL DEVELOPMENT PERMIT

NOTICE OF CONSTRUCTION RULES AND RESTRICTIONS

Commercial buildings shall have a minimum setback of at least 75 feet from road or street, 10 feet minimum of side and rear of yard and minimum of 20 feet from any buildings on an adjacent lot (all setbacks include eaves). When Commercial property adjoins Residential property, a 75 foot front setback is required (includes eaves).

Building height shall not exceed 35 feet. Signage shall be a maximum of 32 square feet and not exceed 32 feet in height. The maximum size of any commercial development shall not exceed 12,000 square feet. Off-street parking spaces and off street loading spaces shall be provided according to the requirements of Ordinance, and plans shall be approved by the Building Inspector prior to the issuance of the development permit.

For construction on lots that have an approach road, the culvert under approach road must be at least 24 inches in diameter, and the bottom of the culvert must be set 4 inches below the grade of the ditch. Property's mailbox (if any) must be placed on the same side of the road or street as existing mailboxes or per United States Postal Service's requirements.

Utility locations: All utilities (water, sewer, electrical, etc.) if located across a paved road surface shall be installed only as follows: boring will be the only means by which services will be allowed across paved surfaces. Undermining or tunneling under a paved surface (more than 60 degrees vertically from the edge of the road) shall not be allowed.

Security lights shall be installed in the front of the development.

Excavation into existing ditches shall be replaced to within 90% compaction. Applicant shall furnish compaction test. Any sodded areas shall be replaced with sod. Excavation into other areas must be sodded.

Construction vehicles (trucks, trailers, tractors, etc.) or equipment used for construction purposes will not be parked on any paved surface for more than a 1-hour period. Any deviance from this restriction may result in the loss of the refundable deposit or a fee of \$100.00 per day levied against that property.

The owner shall be responsible for all damages caused to the roads and streets from the construction process. In case of damage to roads or streets, they must be restored to their preconstruction condition. The refundable deposit will be used to offset any damages to roads, streets, and other property caused by the construction process. The amount of the deposit does not limit the owner's liability.

All required inspections and certificates must be signed, completed and delivered to the City Building Inspector (at 5202 35th ST S, Frontier, ND 58104) before the deposit can be returned. No more than 60 days will be allowed to complete and submit all required inspection paperwork and certificates after the permit expires, otherwise the deposit will be forfeited.

It shall be the responsibility of the applicant to arrange for inspections with the Building, Plumbing, and Electrical Inspectors as work progresses. Any progress in construction which hampers inspection shall be removed at applicant's expense to facilitate inspection.

No *Flood proofing Certificate* can be issued unless the inspector is able to inspect concrete forms both before and after concrete is poured. The applicant is responsible for obtaining any required flood *Elevation Certificate* and *Flood proofing Certificate* from a licensed engineer.

All commercial construction must conform to the appropriate requirements of the Americans with Disabilities Act (ADA).
